INTELLEX Report gives you quick and easy access to Gulf of Mexico well, lease, pipeline, platform, seismic and production data. But, did you know that it also gives you the ability to use the same powerful mapping and reporting capabilities to view Applications To Drill, Plans, and Prospects?

## APDs

Each week Energy Graphics compiles and releases summary information on all of the Applications for Permits to Drill received by the Minerals Management Service. Search by area, dates, operator, or water depth to produce a spreadsheet style report with just the data elements you need. Connect to [www.energygraphics.com](http://www.energygraphics.com) to download the latest data each week.

6102 Milwee ST., Suite M  
Houston, TX 77092  
USA

Phone: 281-558-2061

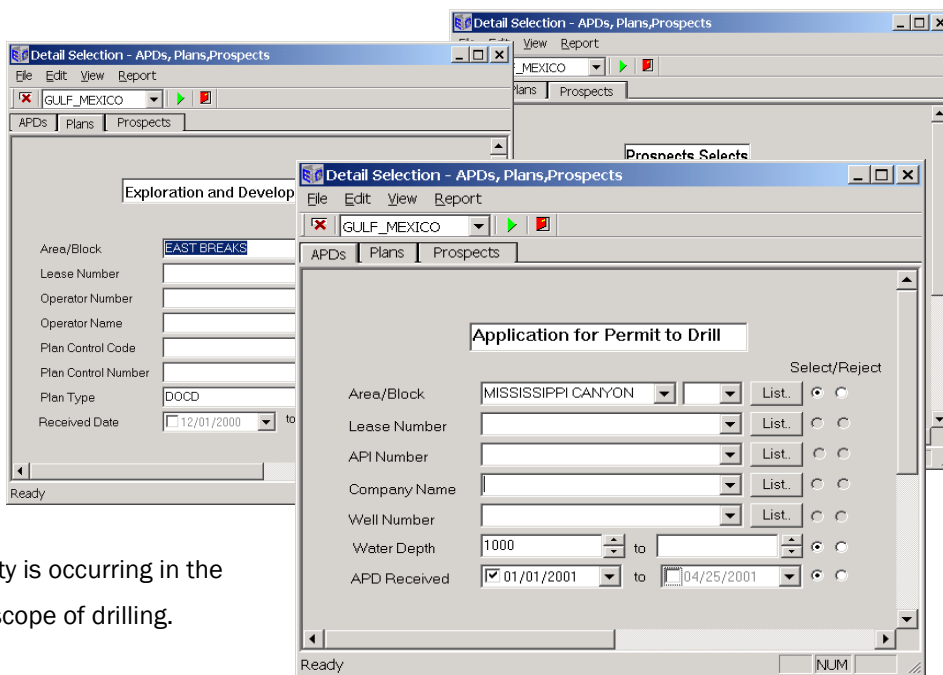

Fax: 281-558-7340

E-mail: [sales@energygraphics.com](mailto:sales@energygraphics.com)

Web: [www.energygraphics.com](http://www.energygraphics.com)

## Plans

Energy Graphics actively maintains a database of all the pertinent information contained in the Exploration Plans and DOCD documents (Plans) submitted to the MMS by operating companies. Query the file to determine when and where E & P activity is occurring in the Gulf and the planned scope of drilling.

*Set selection options for APDs, Plans, and Prospects.*

## Prospects

Identify and locate the major deep water named Prospects and report the fields, leases and operators involved in them. New prospect names are continually added to the database so you can stay current with industry developments.

Prospect_Name	Area_Name	Area Code	Block	Lease Number	Operator	Field Name	Discovery Date	Field Water Depth
BAHA	ALAMINOS CANYON	60805	600	G08580	SHELL DEEPWATER DEVELOP	AC600	05/23/1996	7896

*Prospects List Report*

## Plus

- ◆ Enhanced dynamic querying on all major attributes
- ◆ Automatic counts of all records retrieved
- ◆ New Master/Detail style spreadsheet reports for simple data export to MS Excel or direct printing of all or selected records.
