## Digital Maps

INTELLEX Touch is great for use in conference and visualization rooms.

- ◆ Touch screen to get latest data reports for wells, leases, pipelines, fields, and other datasets
- ◆ Display maps from Energy Graphics Library, custom maps, and any INTELLEX use
- ◆ Allows the use of touch screen technology for presentations
- ◆ Windows desktop interface

*INTELLEX Touch is great for displaying and interacting with digital wall maps in conference and visualization rooms.*

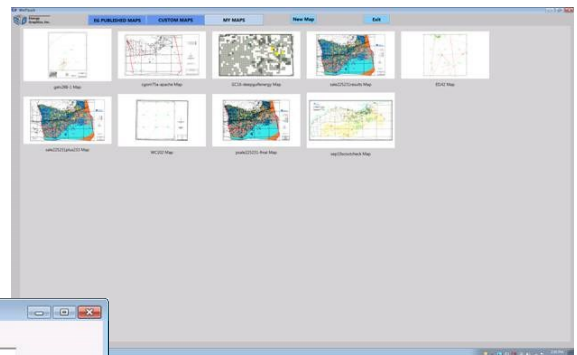

## Digital Maps

INTELLEX Touch is great for use with tablets, to allow instant access to accurate maps and data anywhere.

- ◆ Uses all the standard Windows touch gestures for zooming, panning, and querying data
- ◆ Display maps from EG's Library, custom maps, and corporate INTELLEX maps
- ◆ Touch screen to get latest data reports for wells, leases, pipelines, fields, and other datasets
- ◆ Works using Wi-Fi or Cellular connectivity
- ◆ Map content and data customized per account
- ◆ Subscription based secure user accounts for controlled access to data and maps

*Our INTELLEX Touch Digital Maps give you access to information on mobile devices .*

*Energy Graphics published maps provide real time access to INTELLEX Data.*
